Success Story: SOC Transformation for US based Global Hi Tech Company

SOC Transformation for American Hi Tech Company to AI MDR based Cyber Fusion

Challenges

- Non-Scalable "platform and commercial model"
- Legacy SOC "without AI/ML capabilities"
- Existing MSS Partner "without any platform visibility"
- Limited capabilities for advanced insider threats
- SOC Platform Infrastructure and admin overhead

Value Delivered

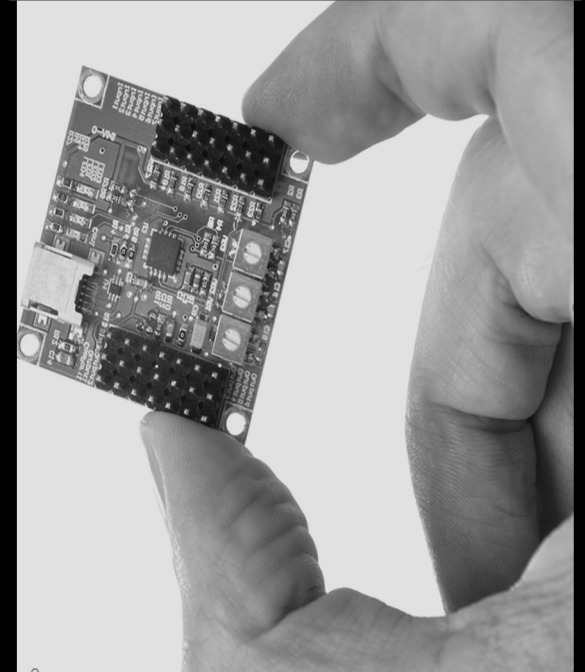

- Upto 50% efficiency in mean time to detect and response (MTTD & MTTR)
- No Capital expense, with highly scalable solution
- outcome based pricing model, accommodating increasing transaction volume trend
- Enhanced security posture visibility on single glass of pane for all levels (CXOs, Mgrs, Engineers)

Solutions

- Wipro AI MDR solution with best security analytics and automation playbooks
 - Industry leading SOC Use Cases & ML Setup, leveraging Market Leading platform "Securonix"
 - Security Operations automation using Wipro's Playbook library, leveraging industry leading platform "Cortex XSOAR"
 - Threat Hunting using Wipro threat hunting queries
 - 3 Year SOC Roadmap with automation journey
- Deliver as a managed services, driving outcome, by owning platform and services
- Wipro MSSP services
 - 24x7 Security Monitoring & Analysis
 - Next Gen SOC with global coverage
 - Automation as a Service
 - Security Incident Response
 - Threat Hunting
 - Platform Management & Engineering
 - Continuous Improvement

SOC Transformation Story
